

IBE/RIBE Series

Uni-body Design Concept

Foot-print outstanding (ref 1.0m*0.8m)

Maintenance and Sample-handling Friendly

Sample holder and ion source design for easy-to use

Flexible Ion Source Design

Different kinds of ion source easy-to swap design, depending on customer requirements

Cost or Performance Orientation

Ion Source, Pump, Values etc. depending on requirements

Sample Handling Options

Open-Load or Load-Lock

Specification	Kaufman ion source	RF ion Source
Wafer Size Range	up to 6 inch	up to 12 inch
Gas System	1 line(standard) or customized	3 line(standard) or customized
Wafer Stage Motion	Tilt from 0° to 90°, Rotation from 1-10 rpm/min	
Wafer Stage Cooling	From 5 to 20°C, Water cooling; He backside cooling optional	
Vacuum	TMP&Mechanical Pump	
Base Vacuum	Better than 7E-7Torr	
Non-Uniformity	Less than ±5%(Edge Exclusion)
